Invitation to an online Q&A session on the proposal for a new Construction Products Regulation

14 June 2022

Dear Madam, dear Sir,

The European Commission is organising a series of information and exchange sessions on the proposal for a new Construction Products Regulation (CPR).

The aim of this specific meeting is to reply to questions raised after the adoption of the European Commission's proposal for a new Construction Products Regulation.

These sessions are intended for relevant stakeholders from:

- industry (e.g., construction products manufacturers, construction products importers, construction products distributors, raw material providers),
- construction product users (architects, engineers, construction companies),
- public authorities involved in the operational implementation (e.g., market surveillance authorities, notifying authorities, notified bodies, Product Contact Points for Construction), and
- other CPR actors (e.g. CEN, EOTA, notified bodies and technical assessment bodies).

To make it easier for participants to follow the discussion as well as providing well-targeted replies on the most relevant and frequently asked questions, we would like to ask you to help us in the preparation of the session:

1. Please prepare your questions in advance and send them to the European Commission no later than by 7 June 2022 via [New CPR Q&A \(sli.do\)](#). The event code is #8568 344.
